## EDUCATION

### PROFILE

I am a Software Engineer with over four years of experience in web applications and mobile solutions. I've worked with the Ministry of Agriculture in Indonesia and improved processes for healthcare organizations. My expertise is in full-stack development, creating user-friendly, scalable systems with emerging technologies.

2016 - 2019

Bachelor of Science in Computer Science  
University of Kanjuruhan Malang

2020 - Fullstack Programmer

Developed mobile websites using PHP and JavaScript for government seed sales, improving business processes.

Freelance

2021 - Programmer

Developed responsive web applications, APIs, and web scraping tools using Django, Flask, and Laravel for a marketing agency and a supply chain management firm.

PT Sahabat Bintang Sejahtera

2023 - IT Staff

Developed scalable backend systems in PHP and JavaScript for education and healthcare web applications, emphasizing API integration.

Soehartono Tjokro Group
